

## Smart HR Org Charts

Graphical organisational charts are one of the best ways to understand and visualise your workforce and organisation.

Organisational Charts are more than just a visual aid to your company's organisational structure. However, an efficient system is required to transform this data into useful organisational information.

Smart HR has integrated the Org Plus engine to offer our clients a visual organisational chart with information already captured on Smart HR.

Smart HR Org Charts converts your company's organisational chart into a decision making tool that provides an integrated view of employee data, facilitating your organisation's current and future business scenarios.

The Smart HR Org Charts web based solution proactively manages change through its advanced technology in converting organisational charts into a powerful business system.

Some of the sophisticated features of Smart HR Org Charts include:

- Up-to-date views of the employee and company organisational charts
  - Customise the look and feel of your charts
  - Publish charts and directories to Excel, PowerPoint and Adobe PDF
  - Chart dotted-line relationships, alternate managers, co-managers, project teams or matrix teams
  - Create custom chart views to communicate organisational structure, changes or vacancies
  - Display financial information such as salaries, budgets and performance metrics
- Use conditional formatting and advanced formulas to monitor key performance indicators
  - Control access to charts and chart data using security rights
  - Chart over 250,000 employees and support thousands of users working simultaneously

Smart HR Org Charts can help your organisation through a visible chain of command which increases productivity, manage risk, monitor performance, accelerate decision-making and reduce planning time.

To order Smart HR Org Chart, please complete the form and fax to **+27 12 643 0982**. An invoice will be sent to you and upon receiving proof of payment; Absalom Systems will confirm a date for installation.
